LEGISLATIVE BUDGET BOARD  
Austin, Texas  
FISCAL NOTE, 86TH LEGISLATIVE REGULAR SESSION  
May 21, 2019  

TO: Honorable Dennis Bonnen, Speaker of the House, House of Representatives  
FROM: John McGeady, Assistant Director  
Sarah Keyton, Assistant Director  
Legislative Budget Board  
IN RE: HB3557 by Paddie (Relating to civil and criminal liability for engaging in certain conduct involving a critical infrastructure facility; creating criminal offenses.), As Passed 2nd House  

The probable fiscal impact of implementing the bill is indeterminate due to the lack of data or information available on the number of times a person damaged, intended to damage, or tried to interfere with the operations of a critical infrastructure facility. These data are necessary to estimate the fiscal impact of the bill's provisions.  

The bill would amend the Government Code to create a criminal offense punishable as a third degree felony for a person who, without the consent of the owner, intentionally or knowingly damages or destroys a critical infrastructure facility or who intentionally or knowingly impedes, inhibits, or interferes with the operation of a critical infrastructure facility. If the person enters or remains on or in the facility with the intent to commit these actions, the offense is punishable as a state jail felony.  

The bill would create a criminal misdemeanor offense, punishable by a fine not to exceed $10,000 or confinement in jail not to exceed one year, for a person who knowingly impairs or interrupts the operation of a critical infrastructure facility. If the person enters or remains on or in the facility with the intent to commit these actions, the offense is punishable as a Class A misdemeanor.  

Creating a criminal offense is expected to result in additional demands upon the correctional resources of counties or of the State due to longer terms of supervision in the community or longer terms of confinement in state correctional institutions. The bill may have a negative fiscal impact by increasing the number of people on felony community supervision or incarcerated within state correctional institutions. Whether the bill would result in a significant fiscal impact is indeterminate due to the lack of information on the number of times a person committed these actions against a critical infrastructure facility. Additional information is available in the Criminal Justice Impact Statement.  

According to the Comptroller on Public Accounts, the fiscal impact to the state cannot be estimated. The Office of Court Administration does not anticipate a significant impact to the state court system.  

Local Government Impact
According to the Office of Court Administration, no significant fiscal implication to the local court system is anticipated.

The bill also creates criminal offenses if the person enters or remains on or in the facility with the intent to commit these actions. These offenses would be punishable as a misdemeanor or felony depending on the circumstances of the offense.

A third degree felony is punishable by confinement in prison for a term from 2 to 10 years and a state jail felony is punishable by confinement in a state jail for a term from 180 days to 2 years or Class A misdemeanor punishment. In addition to confinement, most felonies may be subject to an optional fine not to exceed $10,000. A Class A misdemeanor is punishable by confinement in county jail for a term not to exceed one year and, in addition to confinement, an optional fine not to exceed $4,000. The misdemeanor specified in the bill is punishable by confinement in county jail for a term not to exceed one year and, in addition to confinement, an optional fine not to exceed $10,000.

Creating a criminal offense is expected to result in additional demands upon the correctional resources of counties or of the State due to longer terms of supervision in the community or longer terms of confinement within state correctional institutions. The bill may have a negative population impact by increasing the number of people under felony community supervision or incarcerated within state correctional institutions. Whether the bill would result in a significant population impact is indeterminate due to the lack of information on the number of times a person committed these actions against a critical infrastructure facility as defined by the bill. In fiscal year 2018, for misdemeanor offenses related to criminal trespass and criminal mischief, 11,488 people were arrested and 1,605 were placed under community supervision. Data do not exist that would allow for criminal conduct for the facility types addressed in the bill's provisions to be identified from all other cases.

The provisions of the bill addressing felony sanctions are the subject of this analysis. The bill would amend the Government Code to create a criminal offense punishable as a third degree felony for a person who, without the effective consent of the owner, enters or remains on or in a critical infrastructure facility and intentionally or knowingly damages or destroys the facility or impairs or interrupts facility operations. If the person enters or remains on or in the facility with the intent to commit these actions, the offense is punishable as a state jail felony.

The provisions of the bill addressing felony sanctions are the subject of this analysis. The bill would amend the Government Code to create a criminal offense punishable as a second degree felony for a person who, without the consent of the owner, intentionally or knowingly damages, destroys, vandalizes, defaces, or tampers with a critical infrastructure facility or who intentionally or knowingly impedes, inhibits, or interferes with the operation of a critical infrastructure facility. If the person enters or remains on or in the facility with the intent to commit these actions, the offense is punishable as a state jail felony.

A second degree felony is punishable by confinement in prison for a term from 2 to 20 years and a state jail felony is punishable by confinement in a state jail for a term from 180 days to 2 years or Class A misdemeanor punishment. In addition to confinement, most felonies may be subject to an optional fine not to exceed $10,000.
